Better cleaning, less noise

The compact design and high manoeuvrability allow the CA 240/CA 330 to operate with equal efficiency in congested areas such as classrooms, kitchens and canteens.
The secrets to the efficiency of these units lie in the high brush pressure – ten times greater than with conventional machines, and the two 650 rpm contra-rotating brushes. The result is that even the dirtiest floors can be thoroughly cleaned with the minimum time and effort. The two counter-rotating brushes ensure that floors are left clean and dry ready for immediate use.
