

Grippy logo adhesive mat - 91 x 305 cm

GENERAL

Revolutionary polypropylene foot mat with patented adhesive backing

- Absorbs dirt and water thanks to EFM (Entangled Fibre Matrix) technology; water is absorbed and dispersed so that the mat dries quickly.
 - Can be adhered to most commercial floor surfaces: concrete, vinyl tiles, ceramic tiles and linoleum.
 - Extremely durable: withstands heavy traffic (even forklifts) and stays in place for up to 6 months, depending on walking.
 - Easy to install: patented adhesive technology leaves no residue when the foot mat is removed.
 - Great eco score: the Grippy foot mat has a 92% lower environmental impact than traditional changing mats.
 - Ecological: the top layer consists of as much as 40% pre-consumer recycled polypropylene.
 - Low profile and high traction.
 - Can be easily cut to size.
 - Easy to clean: obviously with a vacuum cleaner but can even be cleaned with a scrubber, without the foot mat shifting or curling up.
 - Safe: anti-slip value R13 according to DIN5130 and Bfl-s1 fire class according to BS EN 13501-1
-
- Personalised mat with high definition own digital logo and text.
 - Choice of black or grey mat.
 - Required: logo in high resolution file + completed application document.

USAGE

Installation:

- Clean and dry the floor; this will produce the best adhesive result.
 - The Grippy adhesive mat is always supplied rolled up. Glue the beginning of the mat to the floor and unroll the mat completely.
 - Position the mat correctly and press firmly, leaving no air bubbles or creases.
 - For heavy walking, always trim the corners. This will prevent the corners from rolling up.
-
- For long foot mats, it is recommended that the installation be done by 2 people.

Maintenance:

- The Grippy adhesive mat has low traction (= very thin), which allows it to remain in place during cleaning. Only clean the floor under the adhesive mat if you are going to replace the adhesive mat immediately.
- Vacuuming, mopping and cleaning with a scrubber is possible without the mat shifting or curling up.
- In extremely wet weather (or snow), the mat can always be dried with a hydrogen vacuum cleaner.

Grippy logo adhesive mat - 91 x 305 cm

TECHNICAL SPECIFICATIONS

Dimensions product (LxHxW) 305 x .1 x 91 cm

Material type:

- Top coat: 100% polypropylene, 40% of which is pre-consumer recycled material.
- Adhesive layer: patented formula P54.

Absorbency:

- Absorbs up to 3 l of water per mat.

Life Cycle Assessment:

- The Grippy foot mat has a 92% lower environmental impact than traditional replacement mats.
- The Grippy foot mat would need to be replaced 47x per year to have the same environmental impact as replacement mats (Grippy should be replaced a maximum of 4x per year).
