- Sold only in full cartons of 6 units

pH 7

USAGE

Instructions for Use:

First, wash your hands and nails thoroughly with soap and water. Dry your hands with paper towels. Use this product only when hand disinfection is necessary; do not use it for hand washing. The product is ready to use. Apply 4 ml of the product to clean, dry hands and then rub it in thoroughly, ensuring that the fingertips, thumbs, nails, and creases between the fingers are also thoroughly moistened. Ensure that hands remain moist throughout the entire 30-second contact time. After the contact time has elapsed, let hands air dry with fingers spread apart until they are completely dry.

Minimum contact time:

- To combat bacteria, yeasts, and fungi: 30 seconds.
- To combat enveloped viruses: 60 seconds.

Dosage: 4 ml for both hands combined.

1 full capful or 4 pumps when using a dispenser calibrated to 1 ml per pump.
