

BIO-BLOCK

Probiotic treatment for urinals

Bio-block is a tablet specially developed for deodorising, cleaning, descaling and preventing blockages in urinals. Enriched with micro-organisms, this quadruple-action tablet offers a global treatment for your sanitary installations.

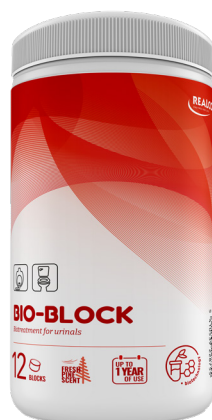

Advantages

- **4 actions in 1 tablet:** Cleans, descales, deodorises and maintains pipes.
- **Prevents blocked pipes:** lactic acid bacteria create a mild acidic environment and prevent uric salt from depositing on the surfaces.
- **Biosurfactant-based** formula.
- One pot = **up to 1 year of treatment** (based on typical usage of one block per month).
- Dissolves only in contact with the materials.
- Spreads a **sweet pine scent**.

Fields of application

Suitable for :

- Urinals and toilets

Directions for use

Place 1 tablet each month (on average) in a previously cleaned urinal with the WC Green from Realco. The consumption will depend on the frequency of use of the urinals

For the toilet, drop a tablet directly into the flush after first cleaning your toilet with WC Green from the Realco range.

Note: if your urinal pipe is blocked, first use RENOL from the Realco range and then apply the BIO-BLOCK treatment to prevent future blockages.
