

Trio Sanitary 3

Description

Concentrated mildly acid sanitary cleaner for daily use. Dissolves mild scale and organic pollution. Frequent use of Trio Sanitary 3 prevents the formation of scale and calcium soap. Trio Sanitary 3 has a pleasant flower perfume with a long lasting action.
pH: 3

Application

For the daily cleaning of the sanitary installation: sinks, showers, bath tubs, toilet bowls, urinals, doors, (tiled) walls, floors, ...

Dosage

As a washing agent: 10-20ml per 5L of water
As a spraying agent: 10-20ml per spray bottle of 650ml.
Rinsing is not necessary
As a descaler: apply pure (possibly with a foam bottle) and let act for a few minutes. Rinse with clean water in this case.
Do not let the product act on natural stone.

Ecology

This product complies with the legislation concerning detergents. The surfactants are biodegradable for at least 90%.
