

Description

Give visitors an extra touch of luxury with Tork Luxury Liquid Soap. A luxuriously scented formulation, enriched with natural magnolia extract and moisturising, lipid-replenishing ingredients for an indulgent, creamy hand-washing experience. Suitable for Tork Liquid and Spray Soap Dispensers, it is approved as Easy to use and gives users excellent hand hygiene.

- Easy to Use (SRA) Make hygiene accessible to all: many Tork Hygiene Systems are certified “Easy to use” by the Swedish Rheumatism Association.
- A unique, elegant, long-lasting fragrance of citrusy top notes reveals a sophisticated blend of magnolia, orchid and freesia tones, leaving a pleasant after-feel.
- Dermatologically tested
- Skin-friendly pH
- Helps secure good hygiene: Factory-sealed bottle with a new pump for every refill helps reduce risk of contamination and protect the formulations all the way to the user.
- Reduce waste: collapsible bottle, leading to 70% less waste volume¹
- 95% of the ingredients are of natural origin²
- Enriched with natural magnolia extract and given a pearly shine for a rich, creamy hand-washing experience
- Reduce time for cleaning staff: Certified effortless refilling³ in less than 10 seconds⁴
- Liquid soap
- Luxury experience
- Easy to use

Version	1

Environmental Information

Content/Ingredients	Soaps are formulated using ingredients that have different functional properties. Essity puts strong emphasis on using carefully selected ingredients in its soaps. All ingredients are
---------------------	---

assessed from a product safety and environmental point of view.

In line with the ISO 16128 standard, at least 94% of the ingredients in Tork soaps are from natural origins; this calculation also includes water. Our EU ecolabel certified soaps meet strict criteria that guarantee excellent environmental performance, including low toxicity to aquatic organisms, biodegradable ingredients, restricted use of hazardous substances and good performance. This soap is also manufactured in a production site that uses purchased certified renewable electricity.

Results from life-cycle assessments performed by Essity have shown that the water used to rinse off the soap has a significant impact on the total carbon footprint from the use of soap. The impact is primarily driven by the energy used to heat the water and the amount of water used. Consequently, the carbon footprint can be reduced by using less water at a lower temperature when rinsing off the soap.

Environmental certification	This product is certified with the EU Ecolabel with certificate number SE/030/002.
Packaging	Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes
Article creation date and latest article revision	Date of issue: 16-01-2023 Revision date: 09-06-2025
Production	The production site is certified according to ISO 9001 and ISO 14001. Cosmetic GMP ISO22716: 2007
Disposal	The bottle is collapsible, leading to 70% less waste volume. Based on Essity test The empty bottle can be sorted as plastic packaging and the transport box can be sorted as cardboard. Please observe local and regional regulations on waste management.
