

The Petrol version for outdoor use is equipped with Honda engine

No tools required for major adjustment or accessory replacements

Built to withstand accidental damage from day to day knocks

Patented vertical flap allows one path collection of large debris (SW 850S)

Versatile sweeping solution

The SW 700S is the perfect choice for small outside areas and the SW 850S for medium outside areas, such as gas stations, parking areas, school yards or inside factories and warehouses.

Saving time and money

The SW 700S and SW 850S improve cleaning efficiency and significantly increases productivity. SW 850S sweeps up to 3690 m² an hour (theoretical), which is six times more productive than cleaning with traditional brooms.
Robust design enables the SW 700S and SW 850S to resist day to day knocks and bumps, lasts longer and deliver excellent performance during their entire lifetime.
The machine is extremely quiet, comfortable and easy to use.
Time needed for regular machine maintenance is significantly reduced thanks to the unique Nilfisk-Advance no tool concept. The system allows easy inspection and change of filters and brushes minimising downtime and saving money.

Years of dependable service

- Available in battery and petrol powered versions for either indoor or outdoor use
- Excellent cleaning results on carpeted surfaces with the soft main brush
- Available with electric filter shaker system (battery version)
- Light and easy to handle
- Battery charger on-board (optional)
- Ergonomic adjustable drive handle
- Polyethylene construction to avoid rust and corrosion risks

Technical specifications

Description	Unit	SW 700S B	SW 700S P	SW 850S B	SW 850S P
Maximum sweeping capacity	m²/hr	3150	3150	3690	3690
Sweeping path (main brush only)	mm	500	500	600	600
Sweeping path (right side brush)	mm	700	700	820	820
Main brush diameter	mm	265	265	265	265
